Nallasopara
A Place with Many Stories

A long, long time ago — way before trains, traffic, and tall towers — Nallasopara was a famous town called Shurparaka. Back then, ships came from faraway lands, monks walked dusty paths, and people traded spices and stories under the sun. It was a place full of peace, prayers, and powerful legends. One of its most special treasures is an ancient Buddhist stupa, a silent storyteller that has stood for centuries, guarding the secrets of monks who once meditated here. Over time, the sea moved away, the stories got quieter, and a new city began to grow. Today, when you walk through Nallasopara, you're walking on history, with ancient whispers beneath your feet and a brand-new future in the sky above.
